What were the circumstances that caused you to initially look for a financial adviser?

Complexity and transition. With Investments and Pensions in both the US and UK, permanently relocating back from the US to the UK, and starting retirement.

How has Jessica helped you?

Jessica worked closely with me to capture the big picture of my wider Goals against my financial situation as is. She then modeled what-ifs and through discussion, created a Plan that we're currently implementing.

Have you seen the outcome you were hoping for?

Yes. We've accomplished our short-term goals and are on track for the future. She advised on and assisted with my change of financial platform that I had requested. Jessica also had wide-ranging discussions with me to ensure that my Portfolio going forward reflects my current liquidity, risk, and investment goals. The outcome I sought and found was for an Advisor who listens and is patient. I wanted someone who considers and reflects on what I say but is knowledgeable and experienced enough to present rational cases to challenge me.

What could they have done better?

As a retired Financial Advisor, perhaps I have an insight into best practice that many investors don't. I give Jessica top-marks, with no 'could-have-done-betters'.

What were the circumstances that caused you to initially look for a financial adviser?

I had a non performing QROPS and wanted other opinions on growth strategies. I also had some banking needs as an expat regarding savings and investments.

How has Jessica helped you?

Jessica was able to review my current QROPS and investments and present me with a strategy what was easy to understand and one which was transparent regarding potential returns, fees and expectations. It is rare to find such a good communicator able to provide simple answers to questions while I did my due diligence. The financial advice world is in need of more people with Jessicas skill set.

Have you seen the outcome you were hoping for?

What were the circumstances that caused you to initially look for a financial adviser?

I was concerned about the security of existing pension plans, which were split over several schemes, and I also moved out of the UK.

How has Jessica helped you?

Jessica spent a number of meetings evaluating my position, and the transfer values of my existing pension schemes. Also gained a good mutual understanding and evaluation of my risk profile, and we spent some time assessing the benefits of retaining existing schemes, moving to SIPPS. This included a full review of the cost structures of various schemes. Since inception I have had regular updates on the chosen scheme progress, and a couple of changes have been made to the investment structures to optimise and realign.

Have you seen the outcome you were hoping for?

The outcomes have been acceptable and in line with the projections given. Since starting the scheme four years ago markets have been fairly volatile, but the plan is meeting mid-line expectations.

What were the circumstances that caused you to initially look for a financial adviser?

I was working in Dubai and needed help to organise my savings, so that I maximised the opportunities that working in this environment can bring.

How has Jessica helped you?

I have known Jessica for more than five years, and have no hesitation in recommending her as a financial advisor. Jessica has helped organise my savings, providing insights and valuable advice without ever making me feel that I am being pushed towards some pre-determined agenda. She has always made sure that she understands what it is I want to achieve before setting before me a choice of options. And her advice and explanations are clear without being patronising. A real pleasure to work with.

Have you seen the outcome you were hoping for?
